FULL STACK DEVELOPER

I graduated from Centriq's Full Stack Coding Program, with a strong foundation in .NET Core MVC, C#, and SQL. I'm adept at creating robust backend solutions and passionate about leveraging MVC frameworks to develop scalable, efficient applications. I'm eager to contribute to a dynamic team where I can hone my backend development skills and contribute to meaningful projects. I bring a solid understanding of the software development lifecycle, agile methodologies, and a proven track record of problem-solving and teamwork.

TECHNICAL AND PROFESSIONAL SKILLS

Front End: HTML5, JavaScript, jQuery, jQueryUI, CSS3, Responsive/Mobile Web Development, Bootstrap, ReactJS

Middle Tier: C#, .NET Core MVC, LINQ, EF, Razor Pages

Back End: SQL, SQL Server

Tools: Visual Studio, Visual Studio Code, SSMS, Git Bash

Professional Skills: Troubleshooting, Critical Thinking, Communication, Project Management Fundamentals, Teamwork, Pair Programming

INDEPENDENT DEVELOPMENT PROJECTS

Personal Site: Created a personal portfolio website to showcase the skills cultivated throughout the course. Application was initially a static HTML site that was then converted to a dynamic ASP.NET MVC site.

StoreFront: Created a database and a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.

S.A.T. Scheduling Administration Tool: Created a secure application for managing product data. Application is built to simulate an online class scheduling system. Administrators will have the ability to manage students, courses, scheduled classes, and enrollments.
